

GPE Utility Storage

Energy storage equipment 5 degrees

Overview

The system is built with long-life cycle lithium iron phosphate batteries, known for their high safety and durability, making it a reliable choice for renewable energy generation, voltage frequency regulation, and energy storage in industrial parks or commercial buildings.

Article Content

FACT SHEET: The Energy Department Is Delivering On Accelerating

The Department of Energy (DOE) is fully committed to unleashing America's next nuclear renaissance, from reinvigorating domestic supply chains to delivering gigawatts of new reactors.

2026 DOE 202 (c) Orders

On January 26, 2026, the Department of Energy (DOE) issued an emergency Order No. 202-26-07, pursuant to section 202 (c) of the Federal Power Act, to Duke Energy Carolinas, LLC and

Antora - Home

See More

Antora builds and deploys thermal energy storage to power always-on industrial operations with low-cost energy. Factory-built in the United States, Antora's thermal batteries deliver reliable and cost

Modular BESS Solution & Energy Storage System | SigenStack

Discover SigenStack's modular BESS solutions and energy storage systems, designed for scalable and efficient energy management in various commercial and industrial applications.

Energy storage battery 5 degrees self-operated

Battery energy storage technology is based on a simple but effective principle: during charging, electrical energy is converted into chemical energy and stored in batteries for later use.

FY 2026 Budget Justification | Department of Energy

Fiscal Year 2026 Budget Justification documents to support the Department of Energy Budget Request to Congress

Liquid Cooling BESS Container, 5MWH Container Energy Storage

The system is built with long-life cycle lithium iron phosphate batteries, known for their high safety and durability, making it a reliable choice for renewable energy generation, voltage frequency regulation,

Genesis Mission

Genesis Mission brings together the Department of Energy's 17 National Laboratories with America's leading universities and industry, including pioneers in artificial intelligence, computing, materials,

Office of Critical Minerals and Energy Innovation

The Office of Energy Technology will continue to lead the world in research and development for cutting-edge energy technologies, fuels, chemicals, and hydropower.

The Nation's Nuclear Reactor Fleet Is on the Rise

The U.S. Department of Energy's (DOE) Office of Nuclear Energy is underway with a new effort that will use existing nuclear energy infrastructure to put more power on the grid. The Utility

Renewable Energy Pillar

EERE's applied research, development, and demonstration activities aim to make renewable energy cost-competitive with traditional sources of energy. Learn more about EERE's work in geothermal,

THE STATE OF AMERICAN ENERGY: Promises Made, Promises Kept

The Energy Department is Delivering on President Trump's Agenda of to Unleash American Energy Dominance.

Energy Department Announces Largest Loan in Department History ...

U.S. Secretary of Energy Chris Wright today announced the Department of Energy's Office of Energy Dominance Financing (EDF) has closed a historic \$26.5 billion loan package to

Department of Energy

Genesis Mission leverages the Department of Energy's unique scientific datasets—spanning more than 100 petabytes of experimental and simulation data across every major domain of science—to double
