

Ethiopia families install solar air conditioners

Overview

Ethiopia is one of the poorest countries according to the Human Development Index (HDI) and at the same time the most populous landlocked country in the world. Especially the rural areas are often densely populated. The Solar Home System project, which is implemented by atmosfair together with the young company foseira Manufacturing in Ethiopia, strives to effectively counteract this problem. Together, the project partners. foseira Manufacturing was founded as a private company in 2014 in Bahir Dar, Ethiopia's third largest city, where it has establishing a local assembly for the solar home systems. foseira can build on the technical and managerial knowhow of their holding company foseira Germany located near Ulm, Germany. Thomas Koepke is the general.
