

Hothouse solar heat storage materials

Overview

A number of materials will work as storage media in home, farm or small business solar heating systems; but only three are generally recommended at this time--rock, water (or water-antifreeze mixtures) and a phase-change chemical substance called Glauber's salt.

Article Content

Solar Thermal Energy Storage and Heat Transfer Media

Heat transfer media (HTM) refers to the fluid or other material that is used to transport heat from the solar receiver to TES and from TES to the turbine or industrial process. Existing state-of-the-art CSP

HotHouse

The HotHouse is a space that seeks to attract and support the most vibrant talent and promising innovators and entrepreneurs in an effort to build a unique and passionate startup culture in San Luis

The Hothouse, 2023 Riverside Dr, Los Angeles, CA 90039, US
