

How much does a hybrid energy plant cost

- LiFePO₄ Battery, safety
- Wide temperature: -20~55°C
- Modular design, easy to expand
- The heating function is optional
- Intelligent BMS
- Cycle Life: > 6000
- Warranty: 10 years

Overview

A typical hybrid solar system setup costs homeowners an average of \$30,000 for a 6kW system with monocrystalline panels and three lithium-ion batteries. Your costs could be significantly lower or higher depending on the size of your system and the quality of the components.
