

Principle of photovoltaic panel lighting

Overview

A solar light is a self-contained lighting system that captures sunlight with a PV panel, stores it in a rechargeable battery, and then powers an LED at night through a charge controller. In simple terms: sun → electricity → storage → controlled LED output.

How Does Solar Work?

When the sun shines onto a solar panel, energy from the sunlight is absorbed by the PV cells in the panel. This energy creates electrical charges that move in response to an internal electrical field in

401 (k) & 403 (b) retirement plans | Principal

Does your employer offer a 401(k), 403(b) or governmental 457(b) plan? These common retirement savings plans can help make the process of saving for retirement easier.
