Can't import annotations from `__future__`

When running the statement from `__future__ import annotations` I get the following error: Traceback (most recent call last): File `"/usr/lib/python3.5/py_compile.py ...`

`std::future<T>::future`

2) Move constructor. Constructs a `std::future` with the shared state of other using move semantics. After construction, `other.valid() == false`.

SJCE Expands Award-Winning Solar Access Program

Thanks to funding from the California Public Utilities Commission (CPUC), San José families and individuals in the program receive clean solar energy without the

New solar power plant allows San José Clean Energy

While serving over 800 customers since its launch in 2021, the program is set to expand to more than 1,000 customers thanks to a new solar

soap2day alternatives : r/pirating

204 votes, 105 comments. rip to the best website to watch stuff on : (ik soap2day is pretty unmatched but im looking for good alternatives with

What's the most recent official link to Soap2Day? : r/Piracy

The "official" Soap2day.to got shut down, but here are some clones that may work for you: Soap2dayx.to Soap2day.tf Soap2dayz.xyz Soap2day.rs Soap2day.tel Soap2day.expert

Most Futuristic Cities Powered By Renewable Energy

This vertical city will house 9 million people and operate on 100% renewable energy including wind, solar, and hydrogen. The design eliminates

Soap2Day substitute? : r/PiracyBackup

44 votes, 28 comments. true After the takedown of /r/Piracy and the subsequent mod decisions, this sub is open to Piracy discussions. Same standard rules apply.

`std::future<T>::get`

The `get` member function waits (by calling `wait ()`) until the shared state is ready, then retrieves the value stored in the shared state (if any). Right after calling this function, `valid ()` is false.

What is the official website for Soap2Day? : r/Piracy

⌚ Dedicated to the discussion of digital piracy, including ethical problems and legal advancements.

Standard library header `<future>` (C++11)

```
future (const future & ) = delete; ~future (); future & operator =(const future & ) =
delete; future & operator =(future & & ) noexcept; shared_future <R> share ()
noexcept; // retrieving the value
```

Soap2day Alternatives? : r/PiracyBackup

Use of VPN: Several users recommend using a VPN like NordVPN or the Brave browser for safer browsing. This is good advice, as a VPN can help protect your identity online and prevent your

Soap2day alternatives that don't load every few minutes?

Soap2day has been my go-to for a couple years, but it doesn't seem to work like it used to. I use look2movie as well, but it doesn't have everything.

`std::future<T>::wait_until`

`wait_until` waits for a result to become available. It blocks until specified `timeout_time` has been reached or the result becomes available, whichever comes first. The return value indicates why

Cities Embracing Renewable Energy: Innovations for a

From solar panels on rooftops to wind turbines in urban parks, cities are harnessing the power of nature to fuel their growth. By investing in renewable energy, cities

`std::promise`

The `promise` is the "push" end of the `promise-future` communication channel: the operation that stores a value in the shared state synchronizes-with (as defined in `std::memory_order`)
