Solar power

OverviewDevelopment and deploymentPotentialTechnologiesEconomicsGrid integrationEnvironmental effectsPolitics

The early development of solar technologies starting in the 1860s was driven by an expectation that coal would soon become scarce, such as experiments by Augustin Mouchot. Charles Fritts installed the world's first rooftop photovoltaic solar array, using 1%-efficient selenium cells, on a New York City roof in 1884. However, development of solar technologies stagnated in the early 20th century in the face of the increasing a

USE | English meaning

"Autumn" is used in British English and "fall" in American English. That's an expression she often uses to describe how she feels.
